Desired outcome	Chosen action/approach	Estimated impact: Did you meet the success criteria? Include impact on pupils not eligible for PP, if appropriate.	Lessons learned (and whether you will continue with this approach)								

Improve 'Attachment Friendly School provision' for PP+ students and those with attachment difficulties	<p>'Circle of Adults' intervention led by Educational Psychologist to teachers of children most at risk due to early trauma/attachment needs.</p> <p>Attachment Training and Emotion Coaching Training to staff who missed last year's training.</p>	<p>We participated in an Attachment Awareness Schools pilot project and have achieved Attachment Friendly Schools Status. We have now completed 7 'Circle of Adults' interventions and rolled this out with all teachers for each student (all of whom have suffered early trauma). Students selected were of extreme concern due to the number, frequency and severity of their disruption to both their own learning and others as well as critical incidents outside of lessons. An average of 10 members of staff attended each 90 minute session that ran throughout the academic year. 6 out of the 7 students have seen an improvement in attitude to learning scores. One is still in crisis and receiving support from CAMHS, Prevention Service, Educational Psychology and a team around the child. Testimonials from both foster carers and adoptive parents who attended was outstanding. Teachers spoke about how it reframed the needs of the child as their early trauma and its impact was better understood.</p> <p>Excellent attendance (Over 90%) in lunchtime dissemination sessions with remaining teachers.</p>	<p>Despite the expense and how time intensive it is, this intervention has high impact. Try to complete more throughout the year for students with attachment but who are not amassing critical incidents. This will be more proactive rather than reactive.</p>
Improve reading outcomes for students in Year 7	<p>Accelerated Reader Programme for all Year 7 students</p>	<p>Accelerated Reader allows us to identify and track all students' reading ability in a year group. By using this intervention tool we were able to identify that 68% of those eligible for PP had age expected or above reading skills, in comparison with over 82% for non-PP, identifying literacy as a barrier. Over the year, those eligible for PP made better progress than no PP with their reading but still not enough gains to help students 'catch up'.</p> <p>See also Accelerated Reader Report for full cohort.</p>	<p>Students seem to tire of taking the tests and therefore progress is affected? Some very vulnerable students need exam arrangements (extra time, prompter etc) to ensure accuracy and validity of test results and therefore accurate measure of progress.</p> <p>Use a series of Celebration assemblies to give a sense of competition, reward achievement and create a culture of pride around reading success.</p>
Improve Literacy Skills for low ability students eligible for PP at KS3	<p>Small group English at KS3. Disapplication from MFL in Year 8 and 9 for appropriate students to complete Personalise Life Skills Course.</p>	<p>All students achieved their Silver Steps Award in Year 8 and Gold Award in Year 9.</p> <p>All students in Year 8 on track to complete their ASDAN Bronze Award at the end of Year 9.</p>	<p>Issues around attitude to learning in current Year 8 group in one side of the year. QA teaching and curriculum. Is this due to mix of students? Student and teacher voice to scrutinise why.</p>
Improve outcomes at GCSE English for identified mid ability underachievers.	<p>Small group intervention of 20 minutes daily for weeks prior to exams.</p>	<p>4 students eligible for PP selected. 2 out of the 4 students achieved their target grade in English. 1 out of the 4 students did not attend any of the sessions. Some could not attend all as it clashed with Maths intervention at the same time.</p>	<p>English and Maths teams to work closely to find more flexible approaches to offering intervention. Whilst the close proximity to the exam is a good thing, they needed to have a few more sessions like this earlier on in the year too.</p> <p>A 20 minute session is only useful for certain skills - it is not quite enough time for students to get their heads fully into writing much.</p> <p>A 20 minute session would work better as a 1-1 perhaps that with a group. More flexibility in provision needed.</p>

Improve outcomes for students in English and Maths in each year group.	Specialist TAs attached to English and Maths faculty and targeted for key groups of low and mid ability students.	Following EEF Report 'Making Best Use of TAs', decision made to attach three TAs to core faculties to offer more consistent and effective support in lessons. Anecdotally, both teachers and TAs feel this has vastly improved working relationships and deployment of support staff.	Continue to develop opportunities for specialist TAs to be part of planning days and twilight sessions within English and Maths faculties this year to harness their expertise in the planning of new schemes of learning and to improve their knowledge of the new GCSE syllabus.
To reverse the underachievement/close the gap for pupil premium eligible students identified as not yet meeting their FFT target grade in Maths	Fortnightly small group tuition offered. Removal from Year 11 Life Skills lessons or lunchtime sessions. Post mock exams.	GCSE outcomes for students eligible for PP removed from Life Skills saw results from their mock exams improve by an average of 0.78 grades. Students not eligible but also receiving intervention improved more.	Reduce group size (average size 5 to 6 students) to see if this improves outcomes for those eligible for PP.
Improved rates of progression in Maths of the least able students in Years 9-11 with a bespoke curriculum tailored to their needs	Small group classes - additional 6 groups timetabled and taught by a Maths teacher. Max capacity 5.	<p>Raw statistics show the following impact:</p> <p>(GCSE) Low Impact: Students in the Year 11 groups achieved lower than their FFTD target. 4 students eligible for PP did not pass their GCSE with a classified grade.</p> <p>(GCSE) Medium Impact: Students in the Year 10 groups are being forecast to achieve an average of 0.25 grades lower than their FFT target. PP students on average 0.33 below.</p> <p>(NC levels) Medium: Students in the Year 9 groups achieved an average of 1.5 sublevels below their FFT target. PP students on average 4 sublevels below.</p> <p>Bespoke pathways involving progression through Entry Level Certificate and Functional Skills: (High) 100% of students in Year 11 groups achieved Entry Level Certificate 1 - 3. Functional Skills Level 1 and Functional Skills Level 2. Students in Years 9 and 10 have already advanced further through their pathways than the Year 11 groups.</p>	At the end of the third full year of the bespoke pathways the outcomes for these small cohorts of students is on an upward trend. Students in the lower years have been involved in the pathways from an earlier point and so support has been more structured earlier in their school careers. The bespoke pathways are a succession to the structured intervention in place from Catch-up funding. As the programme unfolds from a longer standpoint greater degrees of gains will be seen. Programme to continue.

iii. Other approaches

Desired outcome	Chosen action/approach	Estimated impact: Did you meet the success criteria? Include impact on pupils not eligible for PP, if appropriate.	Lessons learned (and whether you will continue with this approach)
-----------------	------------------------	--	---

Maintain attendance levels for Parents of students eligible for PP at Parents' Evenings and key events	Engaging parents - PP Leader to liaise with all parents of students eligible for PP to book in a meeting with her on the evening and to ensure that if they cannot attend, information is collated on their behalf.	100% of parents of all Pupil Premium students have been contacted throughout the year, either by Parents' Evening, attending a Review Meeting or an individual meeting arranged with parents , student and PP Leader to suit working parents on shifts.	This has been of significant success. Parents of students eligible for PP have better attendance at Parents' Evenings in comparison with those who are not PP.
Increased rates of attendance for pupils eligible for PP funding.	Pastoral Support - designation of Attendance Leader to monitor and liaise with PP Manager who can support families with a child eligible for PP who has poor attendance. First day response. Home visits. Educational Psychologist Intervention: Attendance New KS3 and KS3 fortnightly meetings.	Attendance of PP students improved from below 91% to 92% in the academic year. See Attendance file for individual student data.	Still do not have enough capacity to offer consistent and robust first day trigger responses.
For all students eligible for PP to secure appropriate KS4 and post 16 pathways.	Careers Guidance - individual interviews (30 mins in both Year 9 and 10) and an hour in Year 11.	All students eligible for PP supported to ensure they have Options advice. All Year 11 students accessed an appropriate post 16 pathway. 0% NEET	More data analysis required about specific post 16 pathways to establish the number of students suited for a level, 2 and 3 course, going on to right level course to ensure all students have high expectations. QA Careers advice.
No disparity between students eligible for PP and non PP with regards to access to resources, visits, arts and sports participation etc.	Resources Extra Curricular Visits (including all SMSC linked visits) Music bursaries/singing lessons Equipment	Students eligible for PP, who require financial support have equal access and opportunity.	Funding to continue to be available for this vital access to opportunities and equipment. Responses from some parents of students who are PP+ is that they are happy to buy resources and wish for all PP money to be spent on therapeutic support.

Students eligible for PP to be offered skills and opportunities beyond the classroom that can be referenced on their CV.	<p>Duke of Edinburgh Gardening Club</p> <p>Bespoke packages to suit individuals - Rotary Club, Work Experience, RAMP project</p>	<p>100% of students who take the DoE programme gain Bronze and Silver Award.</p> <p>Excellent personal feedback from individuals about opportunities afforded them. PP Leader to support students adding these achievements to their CV.</p> <p>RAMP project: positive engagement ,building self esteem, Individual challenges and goals set and achieved.</p>	Explore other opportunities that we may be able to offer to extend opportunities further.
Improved access to school resources – My Maths, Google Classrooms, VLE etc for students who have no or limited access to assistive technology/internet at home.	PP Leader to liaise closely with families of students eligible with PP and explore potential barriers to learning that may be reduced/resolved through assistive technology.	<p>12 chromebooks on loan for PP students Yr 7 - 11 9 Laptops on loan for PP students Yr 7 - 11</p> <p>This has provided students with technology at school / home as some families do not have computers and helps in classes with chromebooks too, trying to complete Maths homework on their mobile phone as this was the only option.</p>	<p>Scrutinise Homework scores and target questioning within Student Profile meetings to continually look for potential barriers linked to technology/internet access.</p> <p>Use of Chromebook for all Year 7s next year?</p>
Developing therapeutic provision – Just B and Occupational Therapy	<p>13 PP students attended Just B sessions.</p> <p>7 PP students attended O/T sessions</p>	<p>All engaged well and cases were closed or sign posted to another outside agency.</p>	<p>Keep this service as essential for young people.</p> <p>Recognise when more intense family/CAMHS therapy is necessary so targeting the students who will most benefit from this much needed service.</p>
