

Be Your Best Self

December 2020

Dear Parents and Carers,

Year 7 Half Year Science Examination

During the week commencing 18 January 2020 Year 7 students will be carrying out their half year science examination on the following topics:

Reproduction

Differences

Classification

Space

There are revision resources on <https://sites.google.com/tgs.starmat.uk/ks3sciencetgs/home> for the students to access for each of these topics and they all have notes in their lesson books from which to revise.

The results from this examination alongside a further end of year science examination will provide us with an accurate indication of the appropriate set students will join in Year 8. Hence, please could you support your child by reminding them about the date and ensuring that they are revising to be fully prepared for this important examination.

Please do not hesitate to contact me on l.fullerton@tgs.starmat.uk if you have any further questions.

Yours sincerely

Mrs L Fullerton

Key Stage 3 Science Curriculum Leader
