Dear Parents/Carers

## Tadcaster Grammar School – Chromebooks for Learning Scheme

I am writing with information relating to our *Chromebook for Learning* scheme:

### What is a Chromebook?

A Chromebook is a kind of laptop computer, running Google Chrome as its operating system. The device is used primarily while connected to the Internet, with most applications and data residing in "the cloud". Chromebooks differ from a normal laptop in that a robust 'device management system' allows for strict monitoring of use, internet filtering and other vital e-Safety restrictions whilst in school.

### Why have we introduced the Chromebooks for Learning scheme?

The use of chromebooks does not replace, but supplements our existing learning strategies. As a school we have moved away from the use of 'ICT suites', and Chromebooks give students seamless access to the internet and to Google applications, which are being used increasingly across the school to enhance the learning experience. 'Google Classroom' in particular is an extremely powerful application, which offers collaborative and interactive educational activities, effective online feedback and improved communication between teacher, student and even parent.

### What are the next steps?

We will be offering families the opportunity to purchase a device outright, or for a reasonable and competitive monthly direct debit payment, which will be significantly cheaper than the equivalent available on the high street. (Please bear in mind that high street prices will *not* include an extended repair service or warranty beyond 12 months, which would need to be added to any competitive price). At the end of the payment period, the chromebook will be yours to keep. After the 30 month warranty and payment period has expired, when students are in Year 9 and making their options for Key Stage 4, parents can choose to continue making monthly payments and take out a further 30 month agreement. At this point they will receive a new chromebook which will see the students through until the end of Year 11.

### Do students have to take part in the Chromebooks for Learning scheme?

Although we hope families will take up this opportunity ***there is no obligation on parents to participate in the scheme, as it is entirely voluntary.*** Students who do not have their own device will be able to borrow a chromebook when required, but will need to collect and return it to our ICT support team before and after use. We must stress, however, that without your support we will be unable to fully and effectively deliver this initiative.
