

Chromebooks for Learning Scheme

Having access to the latest technology **when** and **where** they need it, gives students the very best chance of success in and beyond the classroom. But for parents and carers, making that investment can be a struggle and the equipment they choose may not always be in line with the School's existing systems and infrastructure. At Tadcaster Grammar School we want to help provide students with access to state-of-the-art IT equipment that works seamlessly with our own school systems.

How Technology Supports Students' Learning.

Chromebooks do not replace, but supplement our existing learning strategies. They give students access to the Google Education Platform which will greatly enhance the learning experience.

'Google Classroom' in particular is an extremely powerful application, which offers collaborative and interactive educational activities, effective online feedback and improved communication between teacher, student and parent.

How The Device Is used

Create, share, collaborate using Google Apps for Education • Organise homework and classwork through Google Classroom • Use digital tools to support research and writing • effective online teacher feedback • Think and behave creatively across all subjects using cloud apps for exploring, designing and planning • Access schoolwork and resources anywhere and any time

Which Chromebook?

We have established a working partnership with a well established education technology provider, and parents can opt into a **VOLUNTARY** scheme to purchase a chromebook for their child through them. Alternatively they can provide their own device, and simply purchase a chromebook licence (around £30) which allows it to be 'managed' within the school's Google domain.

Those students without a chromebook of their own will be loaned one for use throughout the school week.

How The Device Is Funded

Parents and carers can opt to buy a chromebook outright, or commit to fixed monthly payments, and spread the cost over time with no personal credit check required.

The scheme offers an extended warranty and a quick and free accidental damage repair service too.
