

# BACK TO SCHOOL

## Online Safety Tips for Children

Wow, it's September already! The month when autumn officially starts and ... oh yeah, the beginning of a new school year. Every cloud has a silver lining though! Another term means new friends to make, different stuff to learn, fresh online trends to jump on and exciting new games to play on your phone, computer or console. We've compiled a list of our top tips to ensure that - whether you're going online to chat, research things or just have fun - you can do it safely.

### Be cautious with your profile

Be careful not to give out too much info on your social media or gaming profiles. Details like your full name, address or school's name could all help strangers to actually find you offline. A trusted adult can help you make your profiles private - so only your family and actual friends can contact you.

### Lock your devices

Taking your phone or tablet to school? Turn password protection on. It keeps your private info safe and stops anyone accessing your device without permission. Passwords should be memorable to you - but difficult for anyone else to guess. Get a trusted adult to write it down in case you forget it!

### Be smart with screen time

Too much screen time, especially just before bed, can affect your quality of sleep. Losing sleep, or not sleeping well enough, messes with your concentration and energy levels. Try muting notifications so you don't get pinged late at night: you'll feel fresher and more focused the next day.
