

Careers Programme Overview 2026/27

How Parents & Carers Can Get Involved

Engaging with Careers

Parents and carers play a vital role in supporting young people to make informed decisions about their future education, training and career pathways.

Ways you can get involved:

- Attend parent information evenings, options evenings and post-16/post-18 progression events.
- Discuss career interests, aspirations and future plans with your child.
- Explore careers, education and labour market information available through school resources and Morrisby.
- Encourage participation in careers events, employer encounters, work experience, college visits and university outreach.
- Request a discussion with a member of the Careers Team to seek additional guidance.
- Share feedback on the careers programme to help us continually improve our provision.

Supporting the Programme

We welcome support from parents and carers who are willing to contribute their expertise and time to our careers programme.

Opportunities may include:

- Speaking about your career, industry or professional journey.
- Supporting mock interview activities with students.
- Offering workplace visits or work experience opportunities.
- Attending careers fairs and networking events as an employer representative.
- Providing insights into apprenticeships, higher education or different career pathways.
